Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1, 2, 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trane (USPN 6,221,927) in view of Silverbrook (USPN 5,815,179).

With respect to claim 1, Trane discloses a hand held personal digital assistant including information storage means, display means (fig1: element 14), a ink jet printer (Element 18, Column 7: line 61-62), control means (element 24) allowing a user to selectively retrieve and display information for the storage means on the display means and to print the information using the printer means (element 18) and means allowing a user to enter and store new information in the information storage means.

With respect to claim 4, Trane discloses the printer means includes a supply media (element 20) disposed within the personal digital assistant (element 10).

However, Trane fails to teach a monolithic pagewidth printhead.

Silverbrook teaches monolithic pagewidth printhead (Column 5: line 45-60).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the monolithic pagewidth printhead as taught by Silverbrook. The motivation of doing so is to save power requirement and low cost.

2. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Trane (USPN 6,221,927) in view of Silverbrook (USPN 5,815,179) as applied to claim 1 above, further in view of Chin et al (USPN 6,670,950).

The combination of Trane and Silverbrook fails to teach the user interface includes a touch screen.

Chin et al. teaches the user interface includes a touch screen.

It would have been obvious to one having ordinary skill in the art at the time the invention was made as modify to easily indicate a specific portion of the screen, click a specific icon and select a menu of an application program.

Response to Arguments

3. Applicant's arguments filed 12/10/03 have been fully considered but they are not persuasive.

Applicant's argument that Trane teaches a portable computer not a hand held personal digital assistant is not persuasive because the preamble does not limit the limitation of the claim since nothing in the body force to look back the preamble. Trane teaches a portable computer have all the structure of the claim, therefore Trane meets the limitation of the claim.

Allowable Subject Matter

4. Claims 5-9 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
